Sir:

In the Office Action dated April 25, 2003, the Examiner restricted the claims of the present case into three groups (I, II and III), indicating that the claims of the application define three distinct inventions. In response to the Restriction Requirement, applicant elects the claims of Group I, including claims 1-15 and 25, without traverse.

In a Preliminary Amendment being filed in conjunction with this Reply to Restriction Requirement, applicant has withdrawn claims 16-24 and has added new claims 26-49 directed to the claims of Group I. Applicant believes that new claims 26-49 should be examined with the elected claims, and an indication to that effect is respectfully requested. Should the Examiner
